9 DAYS. ONE EVENT. 32 M+ VIEWS.

How **i-engage** Turned CREDAI Property Show 2026 into a City-Wide Digital Success

CREDAI INDORE

THE BRIEF

MAKE CREDAI PROPERTY SHOW 2026 TALK OF THE TOWN.

THE CHALLENGE?

The digital mandate came in on 14th January, with the event scheduled for 23rd–26th January.

Just 9 days to plan, execute, and deliver impact.

There was no room for slow approvals or experimental ideas.

OUR APPROACH

For CREDAI Property Show 2026, the thinking was straightforward:

The event needed consistent, city-wide visibility in the days leading up to it and strong presence during the show itself.

Our intent was simple:

If Indore is on social media, CREDAI Property Show should be everywhere.

Step 1

CLEAR GOAL ALIGNMENT

Before execution, we defined two clear outcomes:

- Increase footfall at the venue
- Build strong, unified recall for CREDAI Indore as a collective body

This clarity helped us filter every decision.
If a piece of content didn't serve one of these goals, it didn't go live.

Step 2

A FOCUSED CONTENT STRATEGY

Rather than relying on a single content stream, we worked on three parallel layers:

- CREDAI-led content to establish authority and scale
- Developer collaborations to leverage existing, relevant audiences
- Influencer content to add credibility and real-world context

Each layer played a specific role.
Together, they ensured consistent visibility without repetition or noise.

Step 3

INFLUENCER & ON-GROUND ACTIVATION

We onboarded 30 influencers with one clear requirement:
their presence had to be on-ground.

There was no scope for stock visuals or generic mentions.
Every creator experienced the property show first-hand.

Each influencer:

- Visited the venue
- Engaged with the event and participating developers
- Created content rooted in real moments and real observations

THERE WAS NO PASSIVE POSTING.

Content was planned to maintain momentum before the event and sustain attention throughout its duration.

SCALE OF EXECUTION

In just a few days:

110+
posts went live

150+
Instagram stories were published

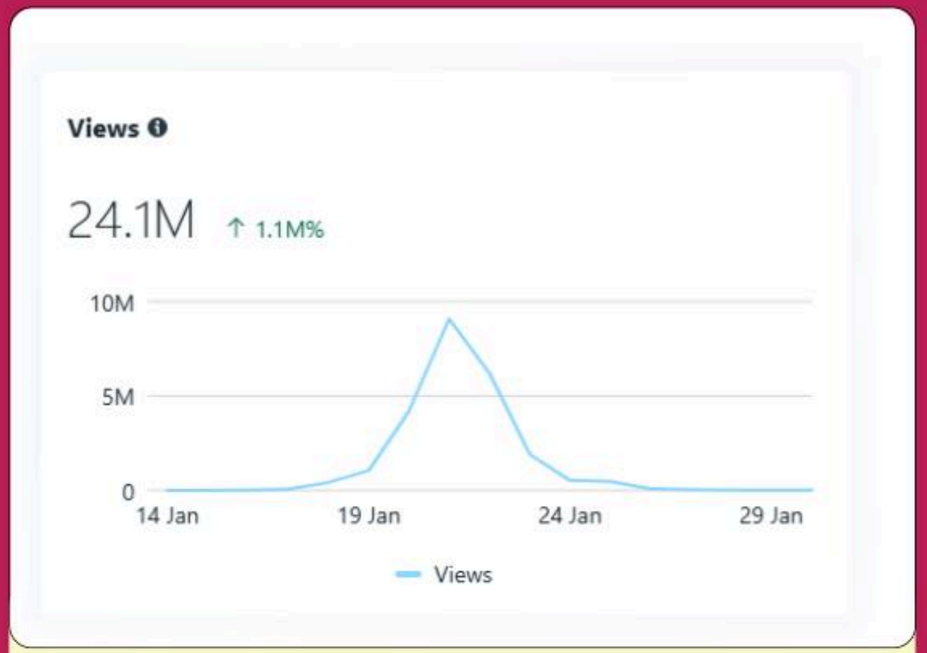

100+
reposts amplified reach organically

Content flowed consistently before and during the event, ensuring the buzz never dropped.

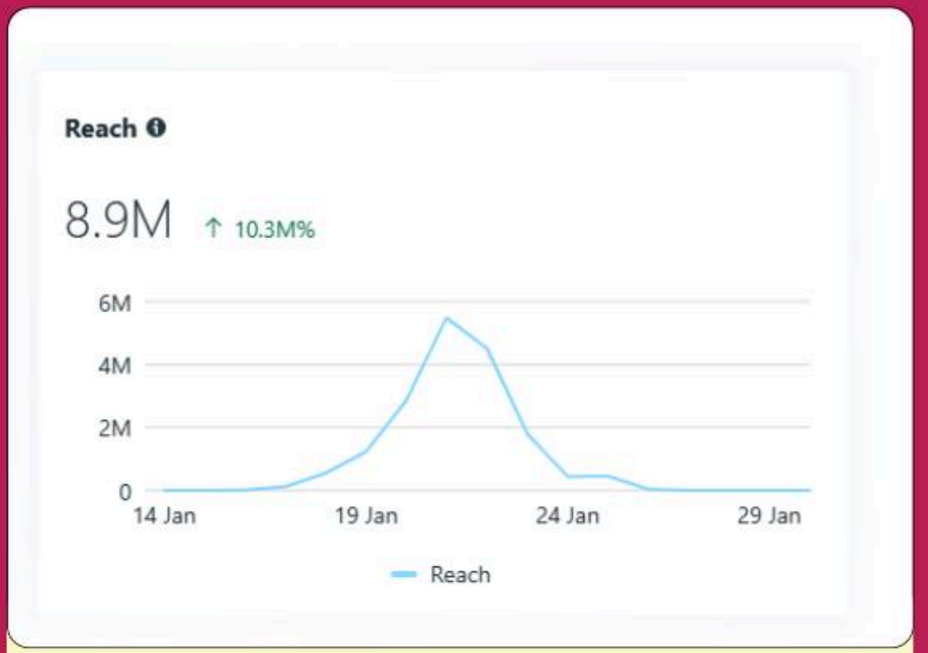

THE IMPACT

When strategy meets execution, numbers follow.

3.2 crore times people watched our content across platforms during the campaign.

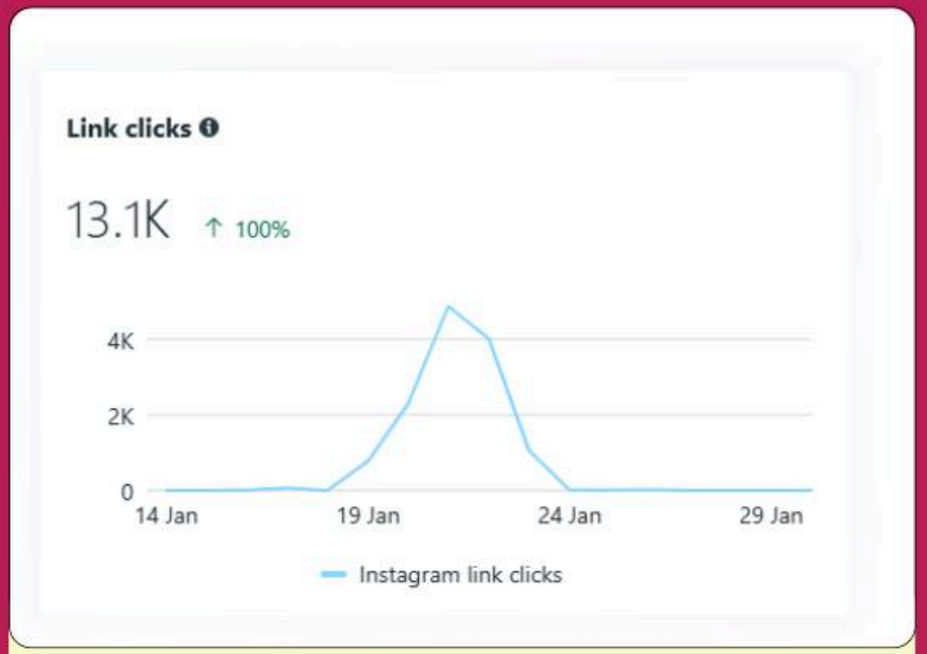

1.2 crore unique people came across CREDAI Property Show content on their screens.

The metrics shown here are from Instagram insights and do not include data from other platforms.

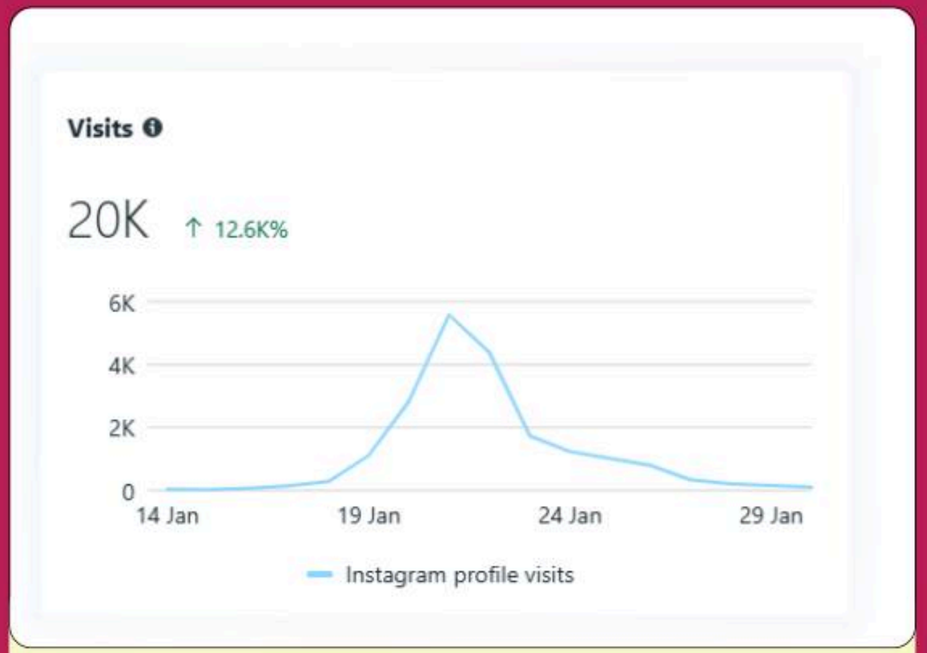

Over **50,000 likes, comments, shares, and saves,** showing active audience engagement.

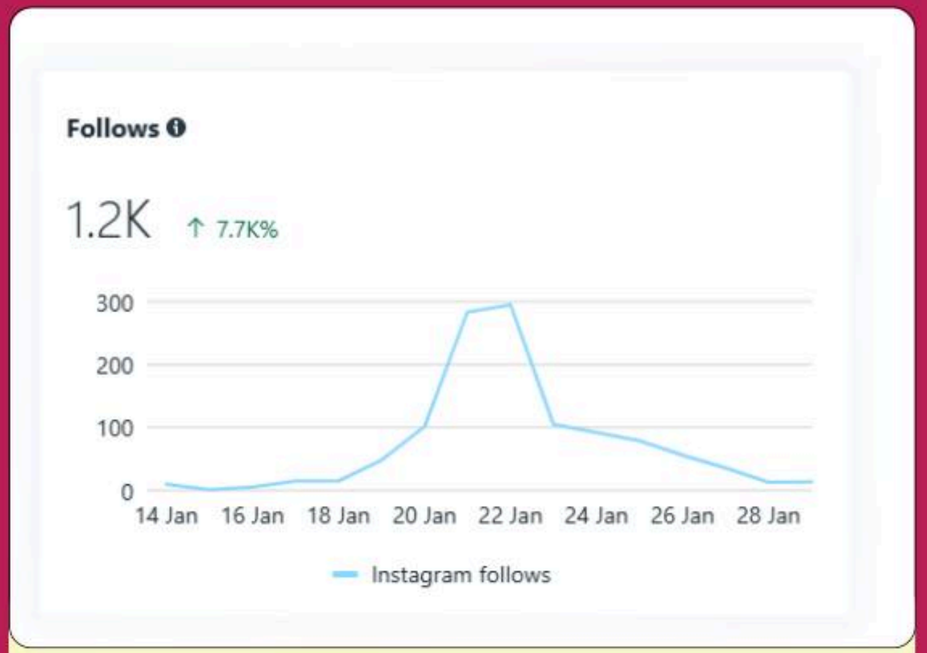

15,000 people took action by clicking through for more event details.

The metrics shown here are from Instagram insights and do not include data from other platforms.

More than **20k people** visited our profile after watching our content.

The CREDAI Indore digital community grew by **1,200+ genuine followers** during the campaign.
