Brand? Strong.
Panda? Iconic.

The Brief

Increase brand awareness .
Consequently,
build engagement.

Our Understanding

STOK has a good presence on social media though struggles, to reach new audiences and drive meaningful engagement.

We need to build a strategy that helps the brand connect better with its core audience, Gen Z through relatable, humorous and community-driven content that makes them notice, interact and remember STOK.

Our Approach

Create a medium-focused strategy to boost brand awareness and engagement across digital platforms.
Driving product interaction through on-ground experiences that resonate with Gen Z.

Brand creation phase -
been there, done that. *IYKYK!*

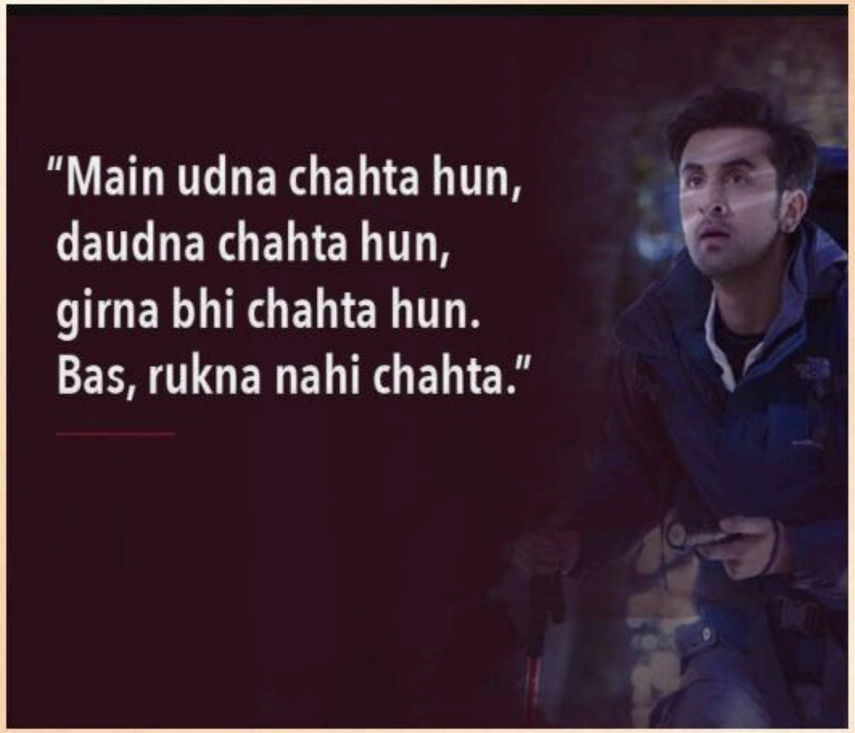

Stok has already mastered the chill vibe,
ab time hai spotlight mein aane ka!

Sustained growth

The only thing our panda is asking-

The Strategic Shift

From product-first approach

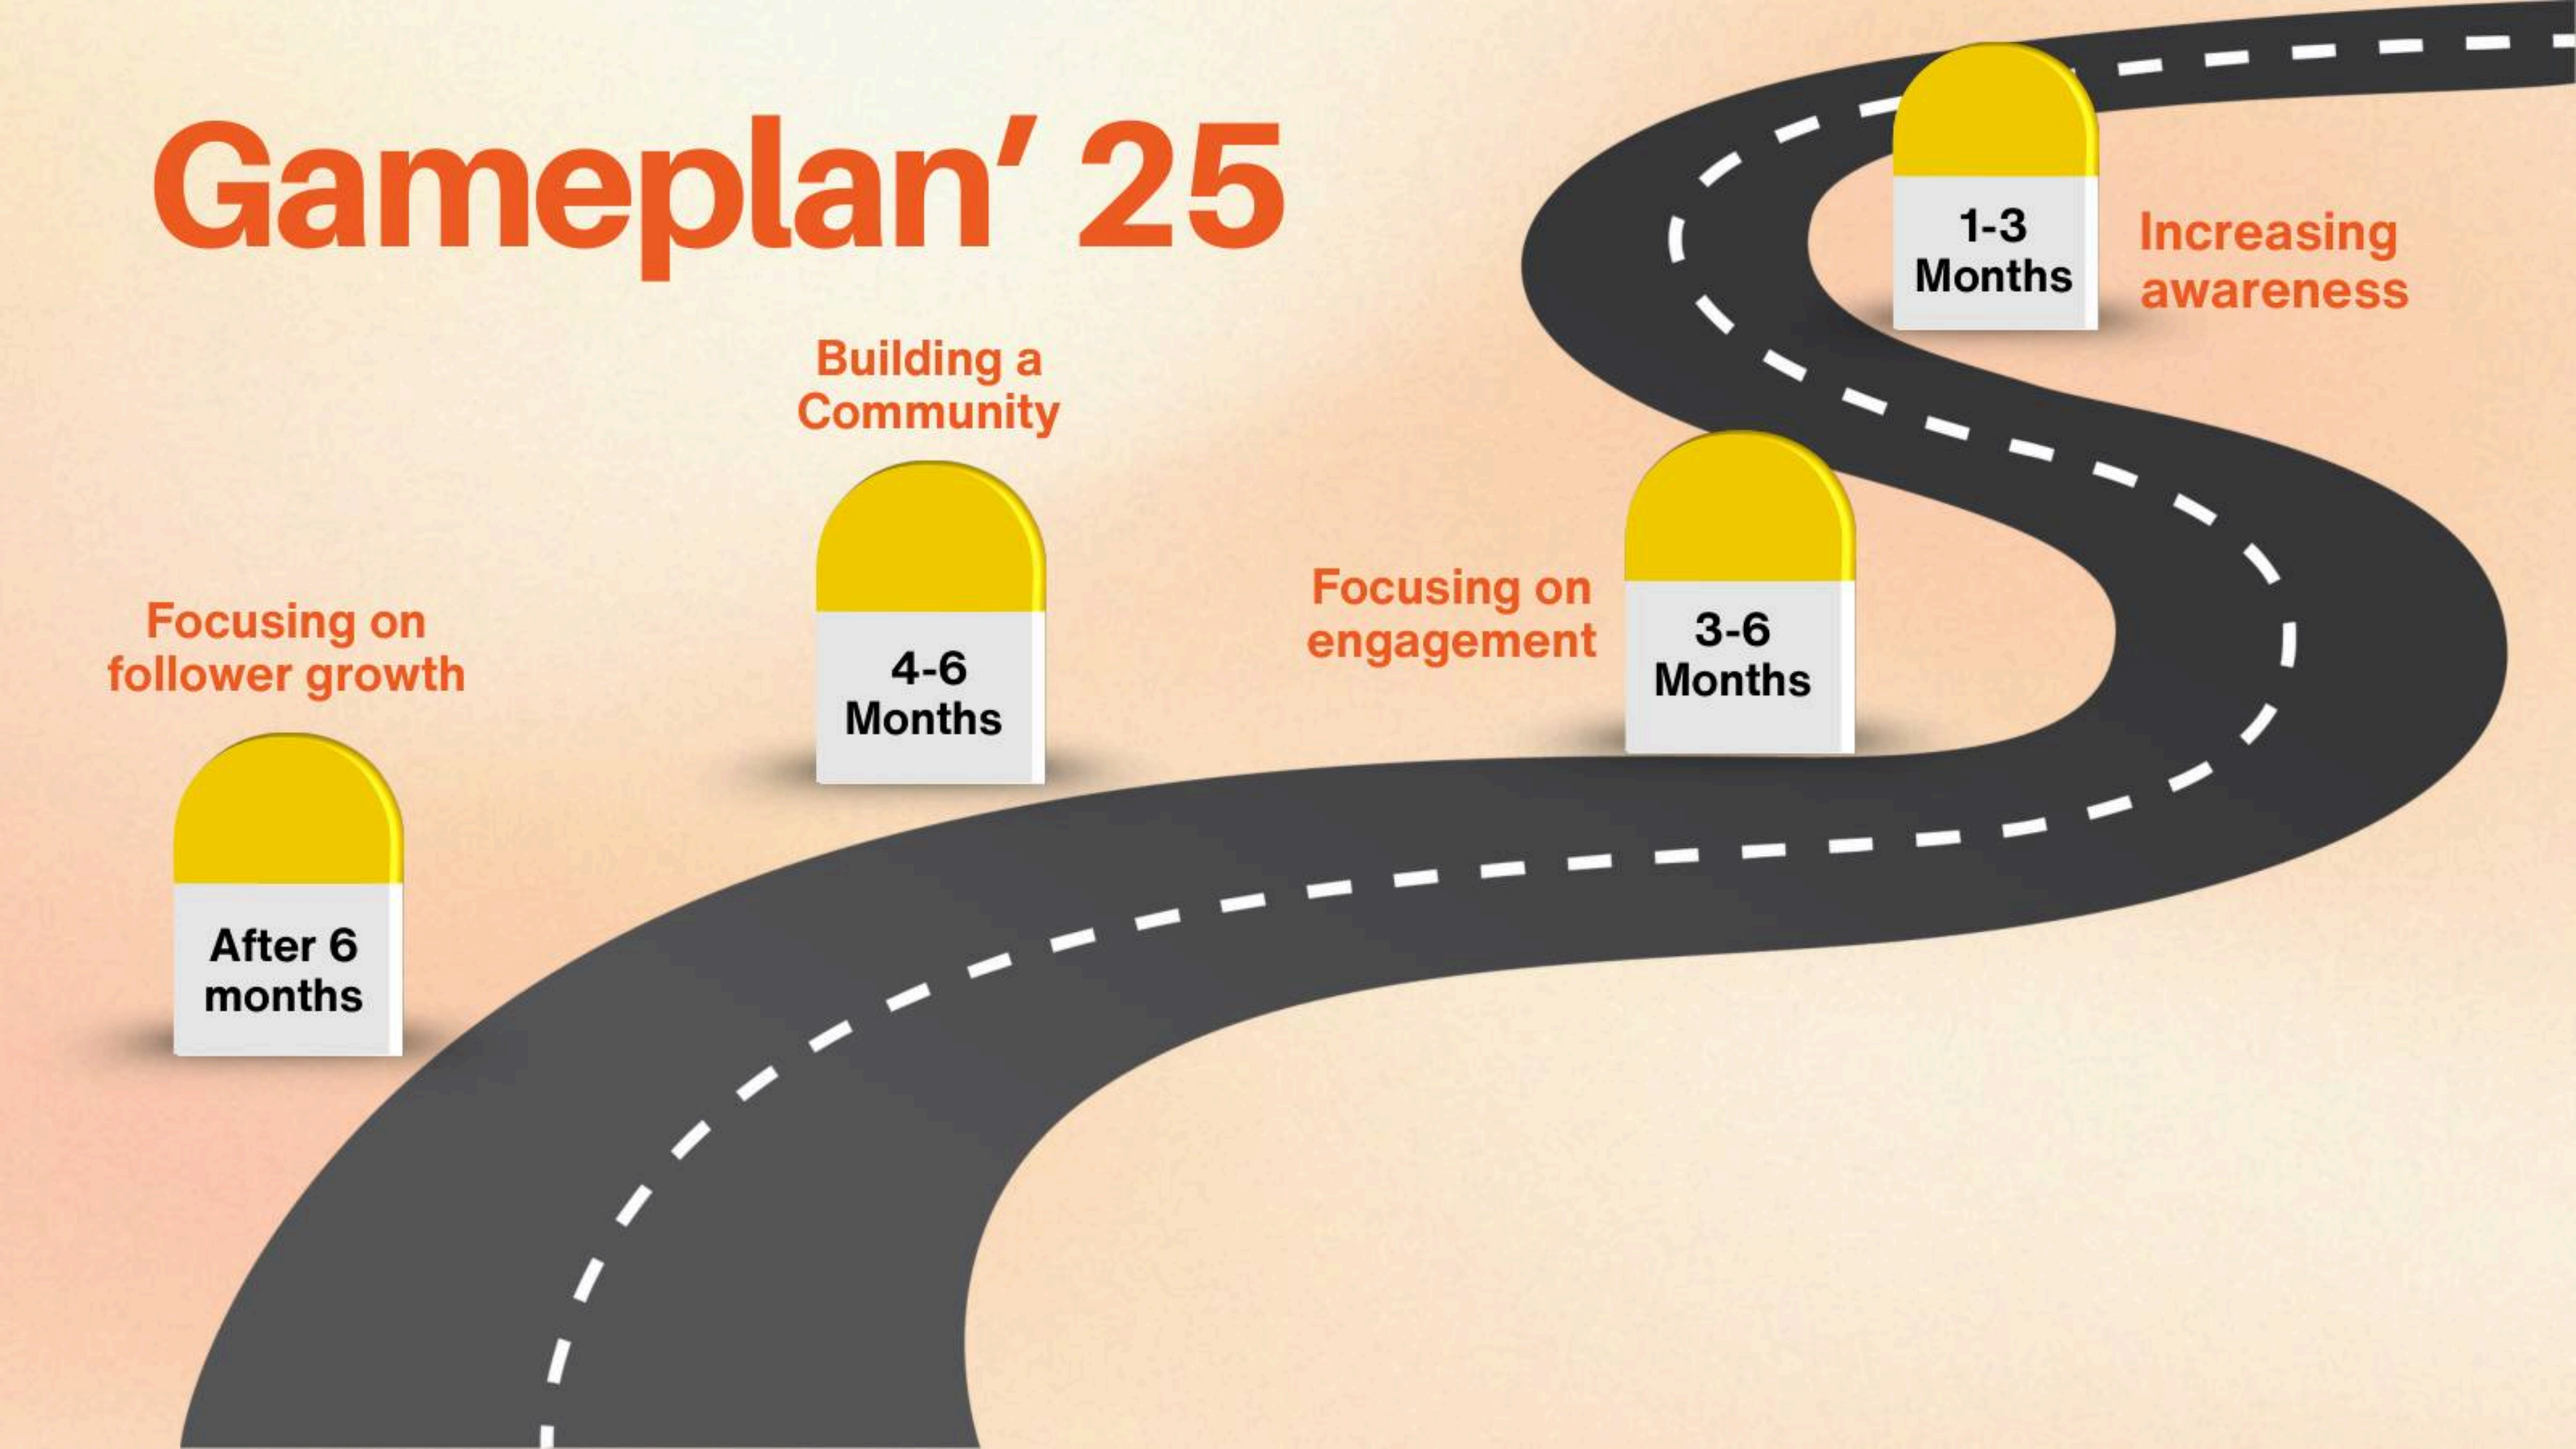

Product slamming in each content piece

To people-first approach

An emotion-led strategy rooted in relatable moments, humour and the chill lifestyle.

We’re building a brand that feels like a friend during a chaos: reminding people to slow down and live the chill.

Chill Guru

Ulta gyan by our very own Chill Guru. The mad hatter, the artist, the creative maniac.

Always lying on a hammock, yapping the most nonsense advice on GenZ life.
Zero stress, just chill takes.

No cap, just facts

bad hair day

No cap, just facts

Kya red flag insaan green flag ban skta hai?

No cap, just facts

Dost ne phynil peeliya kya karu?

Unstok'd Truths

Where chill meets chaos.

A long-form, satirical podcast where three STOK Pandas casually rant, debate, and joke about trending topics from IPL drama to awkward everyday moments. It's the conversation you didn't ask for, but can't stop listening to.

The twist? One panda is completely unhinged constantly interrupting with nonsense, random facts, or totally unrelated takes, adding absurd humour and unpredictability to every episode.

Stok on the Streets

A fun video series where the STOK Panda roams public spaces playing games, photobombing, strumming a guitar, or just vibing. Light interactions, spontaneous moments, and chill energy help build brand recall in the most unexpected ways.

Every time the travel group heads out, Stok tags along, popping up during campfire nights, beach sunsets, bonfire jams, hostel game nights, poolside chill scenes and mid-hike breaks.

We blend into their vibe, their playlists and their best trip memories.

PODCAST

Physical Activation Strategies

STOK's been brewing more than just chill, it's crafted a whole vibe.

AND WHO'S BEEN SETTING THE VIBE SINCE DAY ONE ?

The PANDA.

Commander-in-chief, the master of relaxation!

UNDERSTANDING OF THE BRIEF:

STOK has a good presence on social media but is struggling to reach new audiences and drive meaningful engagement.

We need to build a strategy that helps the brand connect better with its core audience — Gen Z — through relatable, bold, and community-driven content that makes them notice, interact, and remember STOK.
